Pitt Study UK's Language Academy

Based in Santiago, Chile, we specialise in high-quality language training for professionals and students. Our services include private lessons, corporate programmes, bilingual teacher training, and translation services.

We deliver all our programmes through a Live Online format with native-speaking teachers, allowing our students to access high-level language training from anywhere in the world. Our methodology is centred on real-life communication, helping students develop the confidence and fluency required to operate effectively in an increasingly global environment.

Spanish for English-Speaking Adults

Our programme is designed specifically for English-speaking adults who need to communicate effectively in Spanish for professional, academic, or personal purposes. Thanks to our live online model, students benefit from flexible, personalised learning without compromising on quality or interaction.
